Taral, Daryl, and Darryl-

date, you have now attempted to rescind 19 fiber permits that were issued as "no make ready" only to turn around and 5 weeks later decide there is make ready bill us for nearly \$500,000 in red tag pole replacements.

I can understand this happening on occasion and we've been accepting of the 9 received in November. When discussed previously, you indicated that no more were anticipated. But on Friday we received MR CWA's for 10 additional routes for which we had been issued permits at the end of October. It was only after we inquired, did your folks even realize these permits had been issued and then decided they needed to be rescinded.

**PUBLIC VERSION**

Given the permit issuance dates for these 10 routes, the appropriate process would be for ComEd to issue transfer requests to us once the poles are replaced. The permits have been issued 5+ weeks ago at this point. Any replacement costs should rightfully be absorbed by ComEd.

I have advised the team to NOT process these CWA's.

Respectfully-
